Non Conformance Details

Vessel: Asphalt Teranga Defect ID: 233 NCR #: 7/2024 Is NCR ?: Yes

Defect Details

During inspection found one of two diesel generators dismounted (nr 1.) chief engineer declare in waiting of spare parts, no evidence about RO involved (RINA), no memoranda issued or information if the electrical load is acceptable without one of generators (specific in cargo operations).

Requisition Code:

Categories						
Primary :	E/R Machinery	Inspector - Internal:		Vessel Dept :	Engine	
Secondary :	Auxiallary Engines	Inspector External :		Office Dept:	Technical	
		Inspection Date :	29-May-2024			

Applicable Dates

Date Raised: 29-May-2024 ETC: 30-Jul-2024 Date Completed: 28-Jun-2024

Other Details				
Priority : Normal	Assigned By: Port State Control	Verified By: Nawin Khaware		
Display in Daily Meeting? : No	SFI:	Verified On: 28/Jun/2024		

Causes

Poor lubrication of the engine due to low oil viscosity (possiible diesel oil contamination of the lubrication oil as suggested by the last LO analysis).

Corrective Action

The engine will be completely overhauled once spares are available onboard. New complete set of measurements will be taken and running in procedure will be followed.

Preventive Action

Both auxiliary engines and main engine will be constantly kept under close moniitoring for fuel leaks, camshaft covers will be regularly removed and condition of the fuel pumps will be assessed, since the vessel changes fuel consumption from heavy fuels to distilate fuels and viceversa. LO analysis will be carried out on regular basis and samples are going to be sent to laboratory as pre company schedule.

CONTRIBUTING FACTORS

Root Causes- Job Factor

Inadequate Maintenance

Root Causes- Management Factors

Inadequate Monitoring / Supervision

Job Factors

Non Conformance Details Printed On: 28-Jun-2024 1/2

Wear and Tear (Not Related to Lack of Maintenance)

Substandard Acts

Failure to Comply with Manufacturer's Operating Instructions

Follow Up

On	Ву	Follow Up	
28/Jun/2024	Nawin Khaware	ETC has been changed from "29 May 2024" to "30 Jul 2024".	
28/Jun/2024	Nawin Khaware	Spare parts have been delivered onboard, vessel is checking the possibility to replace & fix the issues.	
06/Jun/2024	Nawin Khaware	Vessel has been issued with COC for inoperational condition of AE#01. Please upload the class survey status report here where COC details for said generators could be sighted.
